CampusFix — Major Client-Side Views

Student Name: **Megha K H** | Sahrdaya College of Engineering and Technology | Date: 25.10.2026

Figure 1: User Login Gateway (/login)

Secure authentication interface accepting college email and password with client-side validation.

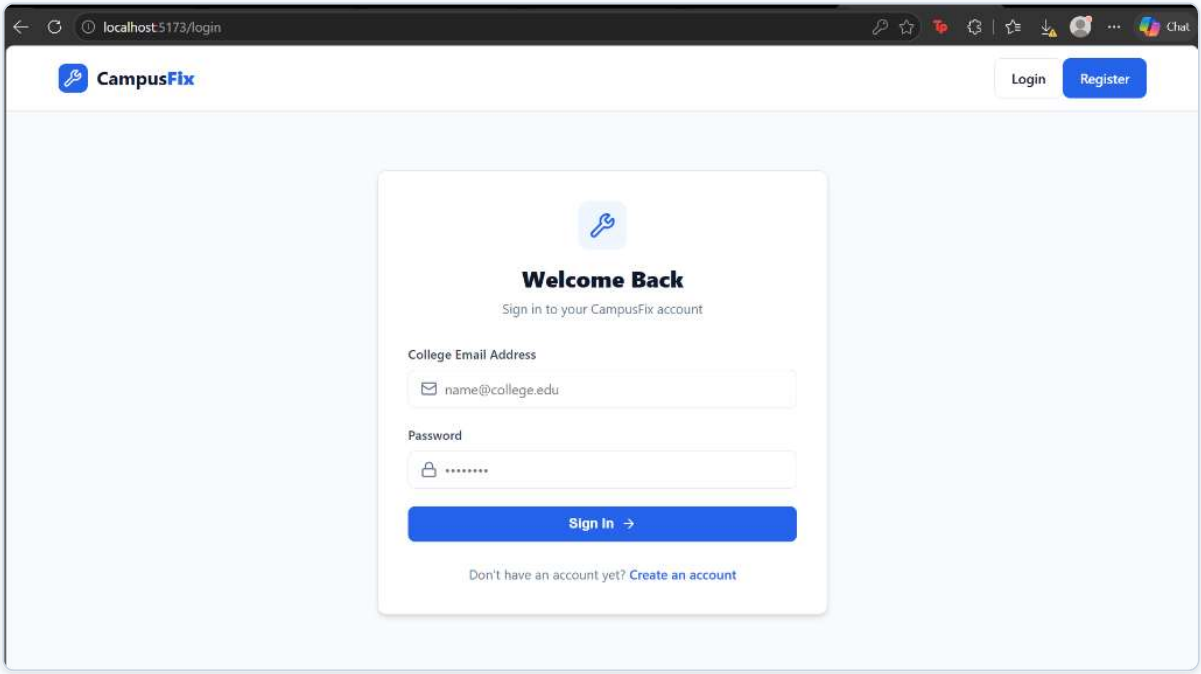

Figure 2: Student & Faculty Registration (/register)

Account registration capturing user name, email, department, and role declaration.

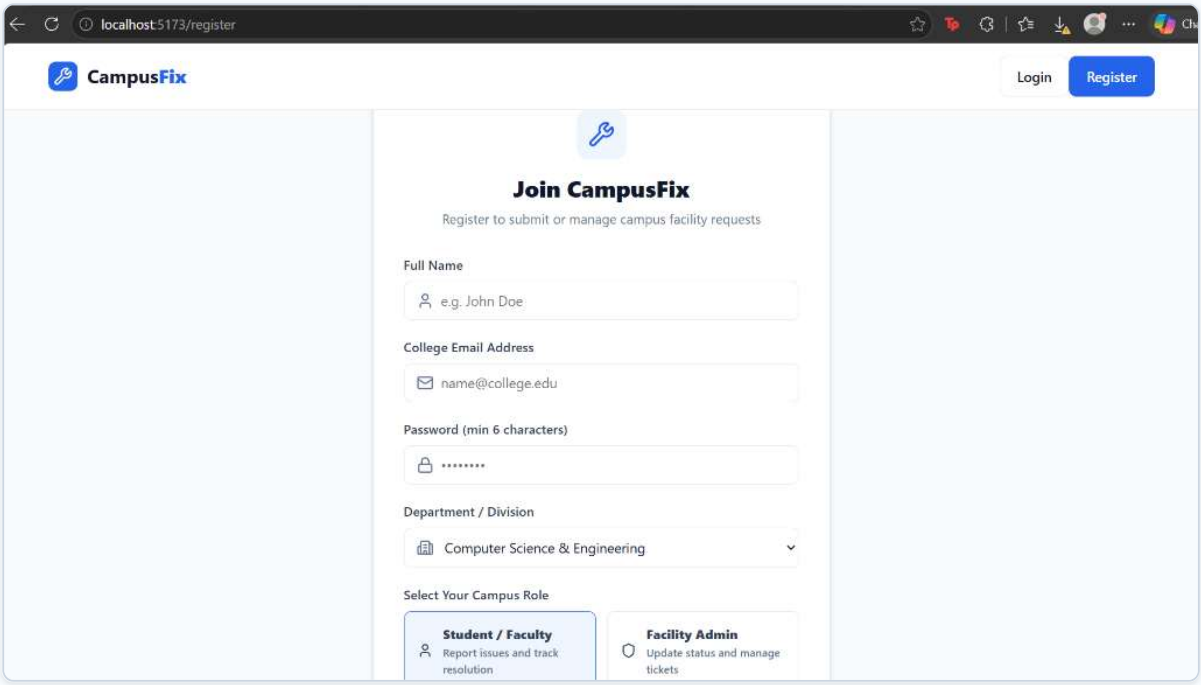

Figure 3: Dashboard Empty State Feed (/)

Implementation of ICTAK Four UI States: displaying friendly placeholder when no tickets exist.

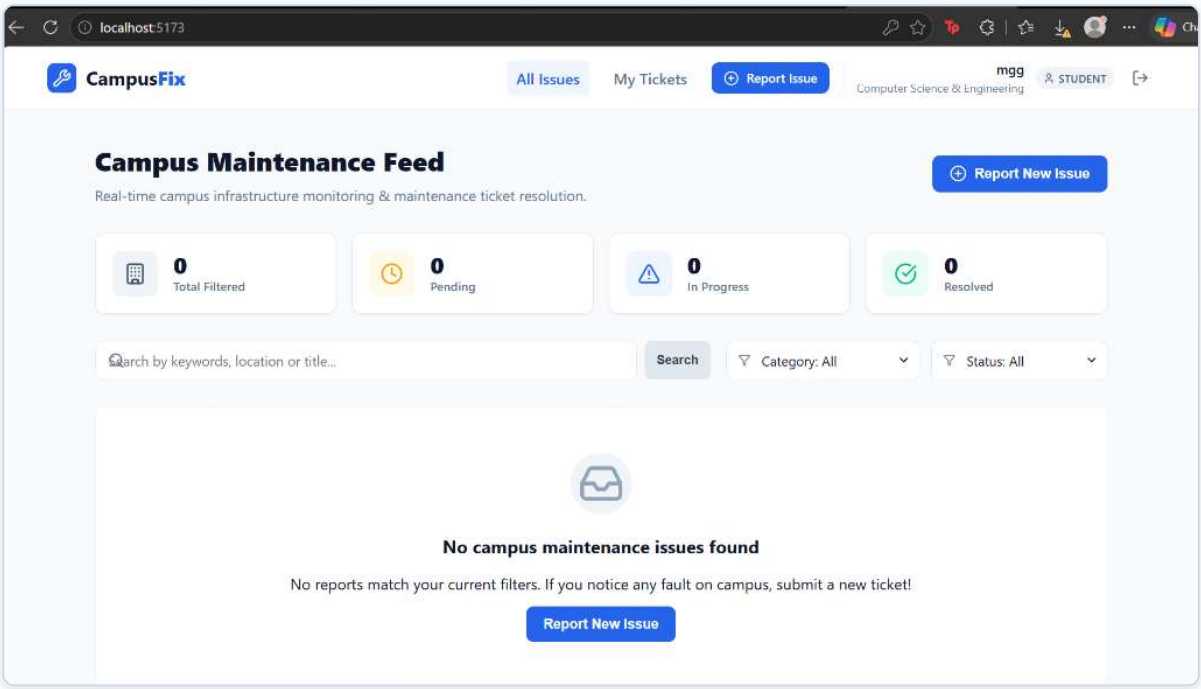

Figure 4: Maintenance Ticket Submission Form (/new-ticket)

Form capturing category, priority, campus location, and description.

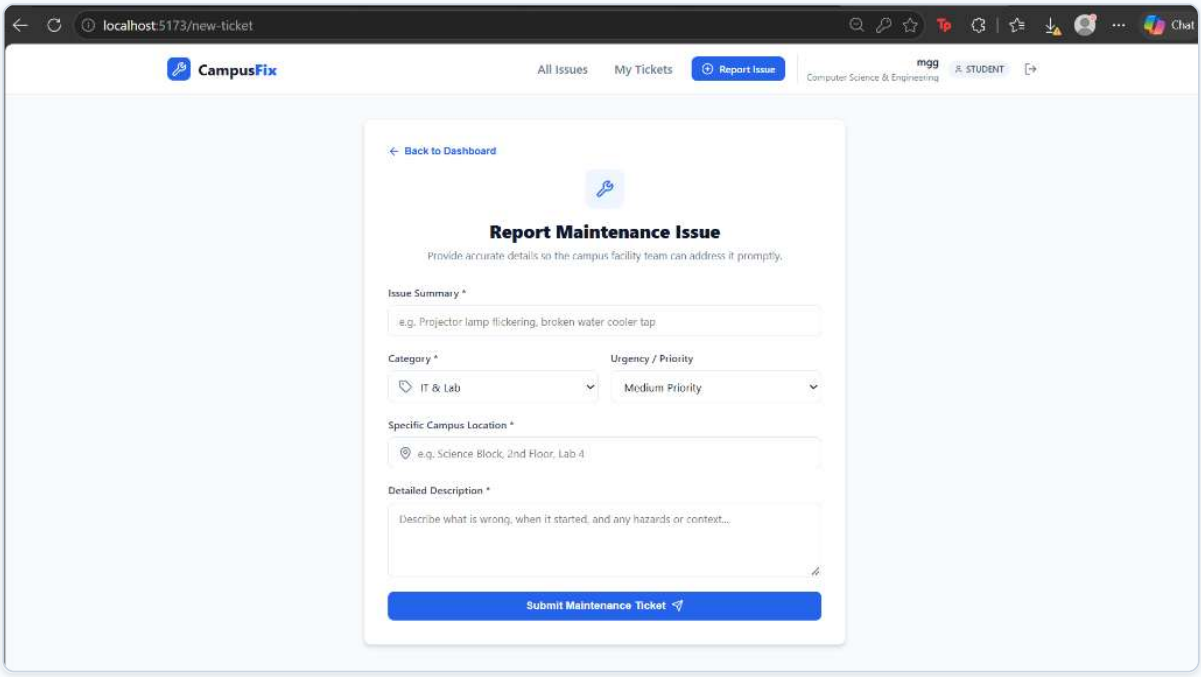

Figure 5: Student View with Active Pending Ticket

Real-time counters increment (Pending: 1), category chip (Plumbing), priority (Medium), and upvote button.

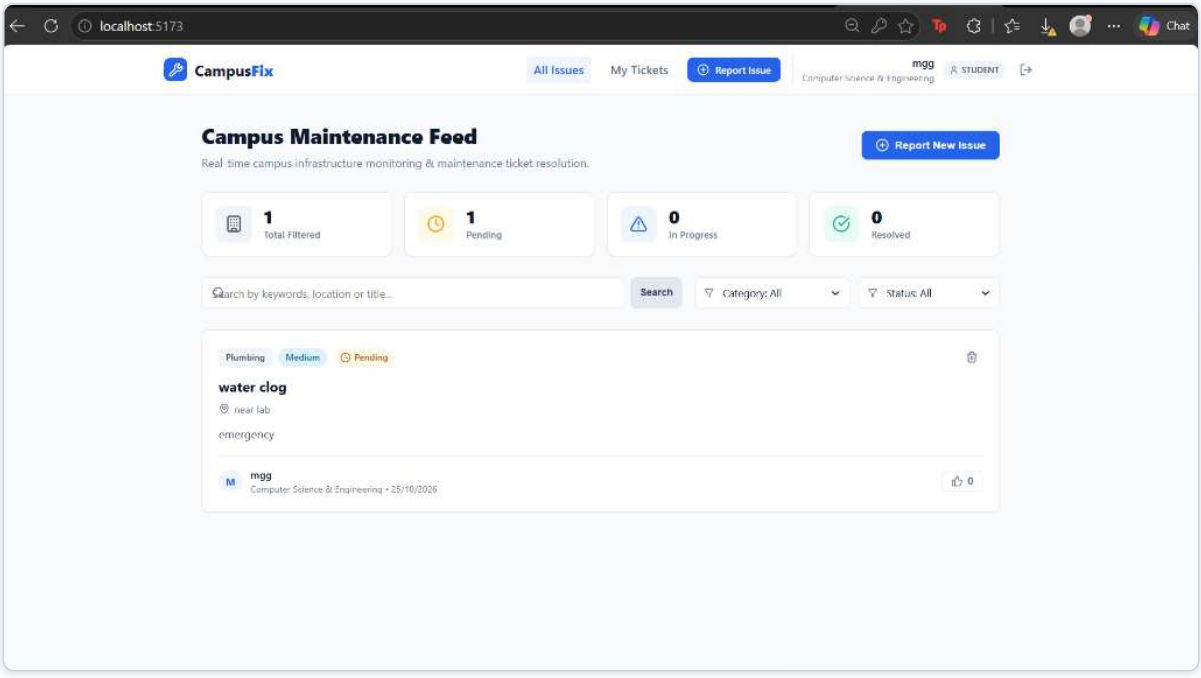

Figure 6: Facility Admin Registration

Registration of an administrative account with the Facility Admin role selected.

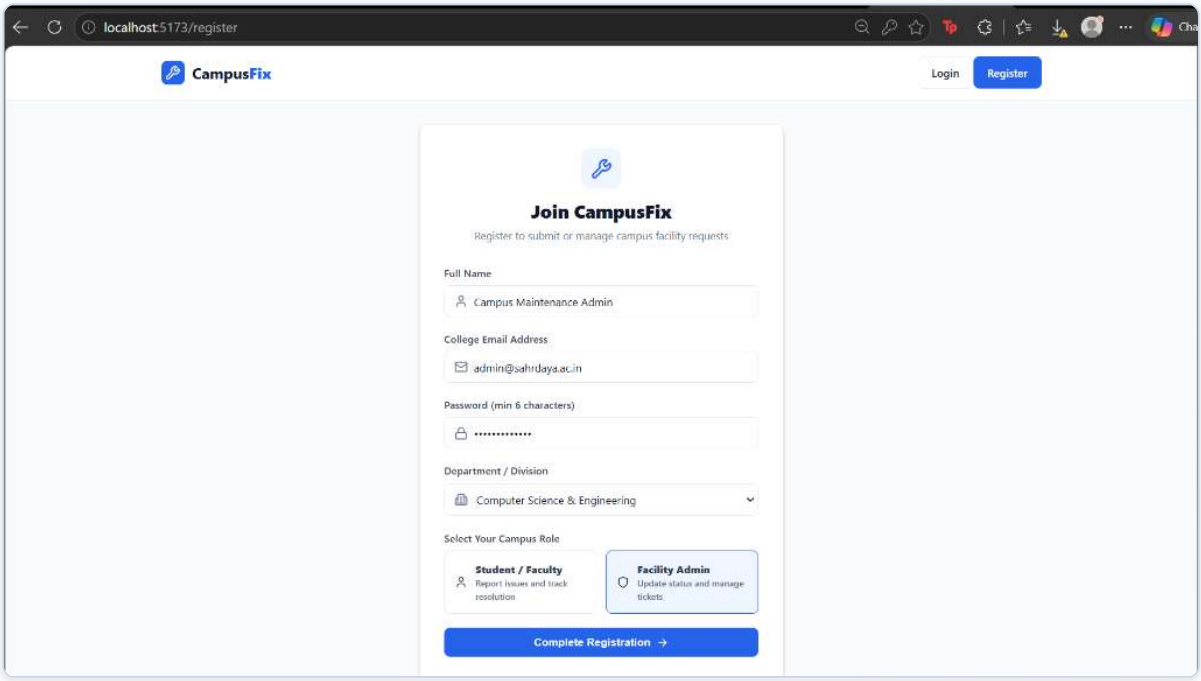

Figure 7: Administrative Dashboard View with RBAC Controls

User header reflects the gold ADMIN badge and ticket card exposes the exclusive "Manage Status" control.

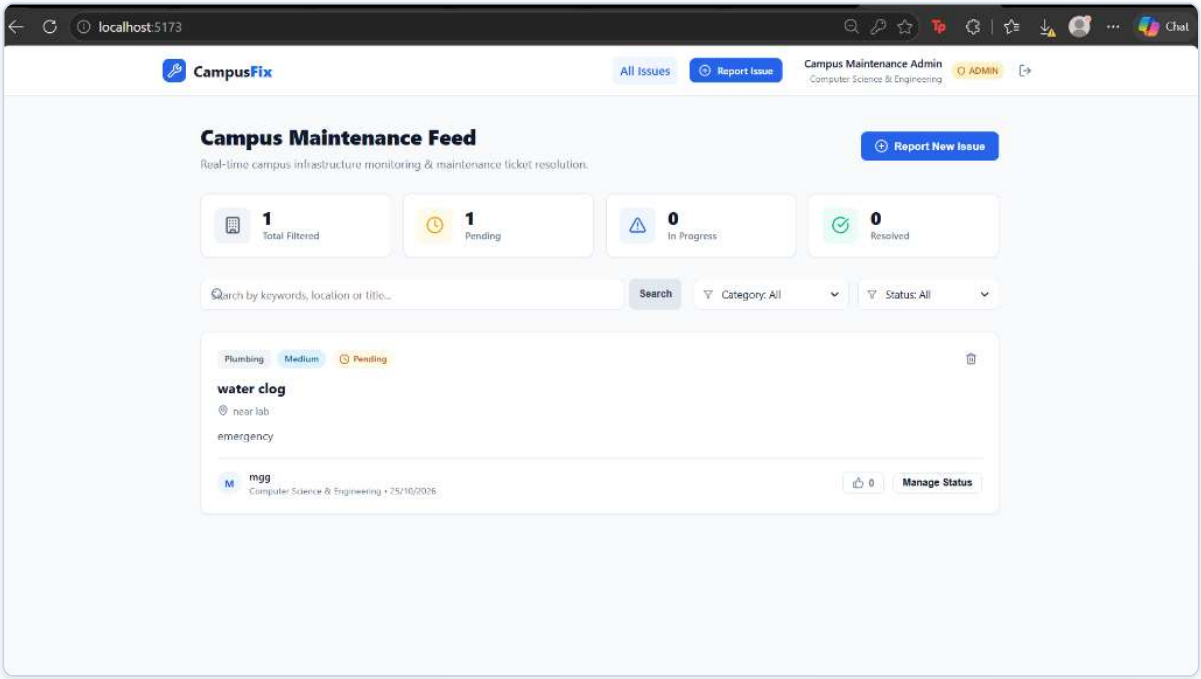

Figure 8: Interactive Admin Resolution Panel

Admin drawer allowing lifecycle status adjustments and technician remarks.

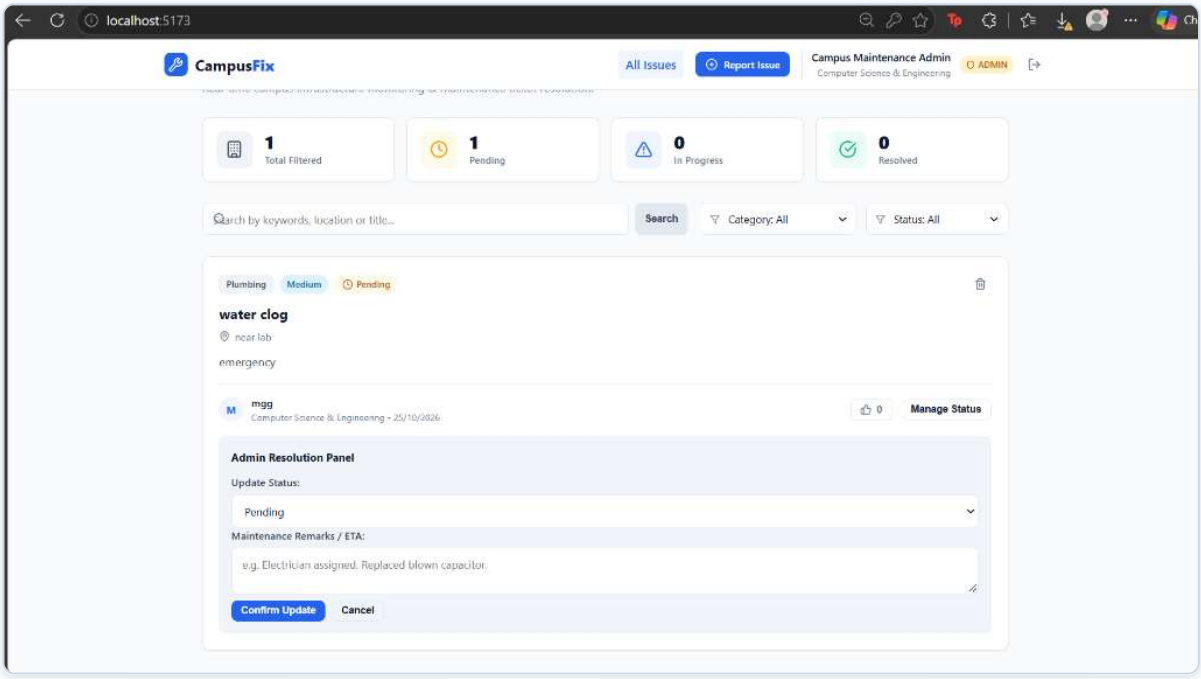

Figure 9: Resolved State with Official Remarks & Metric Update

Ticket marked Resolved, metrics recalculated (Resolved: 1), and official resolution notes displayed.
